

edu.app.server.model.Task

```
classDiagram
    class Task["edu.app.server.model.Task"]
    class NonPeriodicTask["edu.app.server.model.NonPeriodicTask"]
    class PeriodicTask["edu.app.server.model.PeriodicTask"]
    Task <|-- NonPeriodicTask
    Task <|-- PeriodicTask
```

The diagram illustrates a class hierarchy. At the top is the 'edu.app.server.model.Task' class. Below it are two subclasses: 'edu.app.server.model.NonPeriodicTask' on the left and 'edu.app.server.model.PeriodicTask' on the right. A horizontal line connects the two subclasses, with a vertical line extending upwards from its center to an arrowhead pointing at the 'Task' class, indicating that both subclasses inherit from 'Task'.

edu.app.server.model.NonPeriodicTask

edu.app.server.model.PeriodicTask
